

Post-Adoption Services and Fees

An Application for Post-Adoption Services will need to be completed and signed in front of a notary before any services with fees associated with them can begin. This application is needed to confirm your identity to keep full confidentiality for all parties of adoption.

All fees cover partial costs of rendering the following post-adoption services to the requester of these services. New Life Adoptions (New Life) believes in providing excellent post-adoption services and will not deny service based on inability to pay for requested service. If requesting a fee reduction for post-adoption services, please submit a written statement indicating the amount you can pay.

ADOPTION COMPETENT THERAPY

Please note that the post-adoption services provided through New Life Adoptions do not substitute for professional counseling. It is not uncommon to need additional mental health support from an adoption competent therapist when seeking post-adoption services as the topics, relationships, or process in general may bring up a variety of thoughts and feelings regarding your adoption story. We highly encourage you to seek the help and support you need to work through any of these thoughts and feelings. We can offer referrals to adoption competent therapists as well as other applicable resources.
